

The Arizona Department of Administration, State Procurement Office division (the State), as authorized under A.R.S. § 41-2501 is seeking to establish one or more “single-agency” contracts to satisfy the needs of the Arizona Medical Board (the Eligible Agency) to provide “Monitored Aftercare and Physician Health Programs (PHP),” which in general terms, include the services of qualified Contractors to provide case management and monitoring services for licensees and applicants for licensure who have substance use disorder diagnoses and who are participating in Board approved monitoring through the PHP. Services shall also include case management and monitoring of licensees and applicants for licensure who have medical, psychiatric, psychological, or behavioral health disorders; and who are participating in the PHP. The Contractor will act as an agent of the Board and any services provided under this contract and shall not be construed as establishing a doctor-patient relationship for the purposes of treatment.

Bid # ADSP018-00007720

Bid Description Monitored Aftercare and Physician Health Programs
